SERVING OVER 400 COMMUNITIES ACROSS MICHIGAN

Planting Trees, Growing Communities

Now Offering Municipal Memberships

ReLeaf Michigan is a Resource for Your Residents, providing the following services to your community for one \$1500 annual fee.

Offering residents the opportunity to engage directly with tree experts, access educational resources and better understand why trees are important to their community and a smart investment. ReLeaf Michigan is the only statewide non-profit tree planting and education organization, operating since 1988.

“Ask An Arborist” Feature for Residents

Your residents have questions about their trees, and ReLeaf Michigan is here to provide answers. With a dedicated page for each community on our website (e.g. releafmichigan.org/Detroit), your residents can submit questions about their trees and receive answers from arborists and tree experts who work with ReLeaf Michigan.

Educational Resources

Residents have the option to sign up for our monthly eNewsletters, featuring timely tips and tricks for how to care for their trees and information about why trees create value for the community. Additionally, a variety of resources are available to residents on our website, such as a Pocket Guide to Planting Trees or instructional videos.

Annual Presentation / Webinar

Once a year, a tree expert from ReLeaf Michigan will offer an in-person or online presentation on a topic of your choice. To learn more about the options of presentations we have available, see the list on [our website](#).

Tree City Application Assistance

Being a Tree City is a symbol of pride for your community. ReLeaf Michigan is familiar with the process and requirements, and we can help you with the application process. Plus, your Municipal Membership fee counts towards the \$2 per capita Tree City requirement.

Consultation Services Also Available

If you have a project that requires in-person consultation, ReLeaf Michigan’s experts are available to meet and consult with you for an additional fee.
