

Plant it Well, Enjoy it Forever

Best Practices for Planting and Maintaining Trees

FREE PRESENTATION

Proper Tree Planting: Tips and Tricks for Ensuring Tree Survival

How you plant a tree will determine if the tree will live for a few months, a few years, or for the rest of its natural life! There are so many different tips for planting trees that the process can be confusing. From digging holes to watering, join us for this presentation to learn from professionals what you should do when maintaining a tree.

Lindsay Lights Forintos will be leading this presentation. Lindsay has a B.S. in forestry from Michigan State. She is a project forester with RM and is the chair of RM's Michigan Big Tree Contest. She has plenty of experience both planting trees and teaching others how to plant.

All are welcome.

Please join us for this free opportunity!

FREE HOMEOWNER PRESENTATION!
