

PROTECT YOUR OAK TREES FROM OAK WILT DISEASE

PLANTING TREES, GROWING COMMUNITIES.

Oak Wilt disease is killing oak trees in Michigan, and the problem is getting worse.

Learn how to protect your trees from oak wilt and what to do if your tree is already affected. Dr. David Roberts, Ph.D., Michigan State University, College of Agriculture and Natural Resources, is one of the state's leading plant pathologist will lead the presentation and answer your questions.

We hope to see you!
