

Learn the Tricks and Tips to Make Young Trees Thrive!

FREE HANDS ON WORKSHOP FROM RELEAF MICHIGAN

Join us to learn more about the maintenance needed to make newly planted or young trees thrive.

All are invited to a free educational workshop led by Dr. David Roberts, retired plant pathologist at Michigan State University and Bill Lawrence, consulting arborist and retired City of Ann Arbor Forester.

Releaf Michigan's Educational Workshops are made possible thanks to funding from the Michigan DNR Urban and Community Forestry Program

Topics will include how to prune young trees for structure and form, types of pruning, pruning tools, when to prune etc. and will include a hands on opportunity to practice pruning cuts. Watering, mulch and the insects/diseases to be worried about and what to let go will be discussed. Topics are geared to homeowners and professionals. **ISA credits approved.**

Questions are welcome!

JOIN US FOR A FREE PRESENTATION!

Grand Traverse Gvt Center,
2nd Floor, 400 Boardman Ave,
Traverse City, MI 49684

Tuesday, August 27
10AM - 2PM

RSVP to Leslie Bilbey,
231-922-4778 or
lbilbey@traversecitymi.gov

RVSPs requested to help us ensure we have enough materials for everyone.

Bring a sack lunch, beverages provided. We hope to see you there!
